LET'S KNOW ABOUT THE PHILIPPINES

Philippines is located in southeast Asia. Nearby countries are Hong Kong, Japan, Taiwan, Singapore, Malaysia, Indonesia.

Philippines is the world's 12th most populous country with a population of 13 million. The Capital is Manila and financial Capital is Cebu - the Mega City, where Multiple ethnicity and cultures are found.

The Philippines is known for its hospitality and joyfulness. They also enjoy the number of festivals that are held for every locality which reflects the country's rich and diverse culture and traditions.

Studies show that it is more affordable to study in the Philippines compared to other countries offering high quality education. It is because a person can live modest lifestyle here in limited spending in a month.

WEATHER

Summer is From March To May

Monsoon is from June to October

November to February is
Cool with fair weather

Average day temperature is
22.2°C to 32°C with humidity at
77%

Do you know that
PHILIPPINES is the
1st CHOICE

For Indian students for
MBBS Abroad

Thousand of Indian students
are studying MBBS/MD
in Philippines

Philippines is worlds 3rd largest English Speaking Country. 94% of Population speak English.

Philippines Medical Universities are widely renowned in many countries for the superior standard in Medical education and also are listed in the MCI, WHO,IMED,FAIMER and ECFMG medical education directories.

According to American Physician Statistics. one among ten doctors in the USA studied at Philippines medical university .

The Climate of Philippines is tropical Climate. Varies from 23°C to 32°C Throughout year, which is similar to the Indian Climate Which helps Indian Students in settling with ease.

Types of Diseases in Philippines is exactly Similar to India, it's great advantage to students who want to practice in India.

Extensive Clinical Exposure and Hands on Practice in hospitals only Possible in Philippines.

As it is 12th most populations country in the world, hence you will have greater opportunity to practice with a varied and large number of patients.

Philippines was a colony of USA for 50 years, During this time, USA designed Philippines education system similar to their system. The Medical course in the Philippines is called the MD (Doctor of Medicine) exactly same to medical course of the USA

Mr. Pravin Gajera

Chairman of Jay Ambe Group of School

Mr. Pravinbhai Gajera, The Chairman of Jay Ambe Group of Schools says 'Education is lifelong and infinite learning of mankind'. Since 2008 he is in the field of science education and thousands of students have completed their studies in medical field. My mission is to provide medical education through 'JAY AMBE MBBS IN PHILIPPINES' to the students below merit. One can achieve success only by hard work and dedication. My dream is to establish 'Jay Ambe Group of Schools' for students to select their field & my management, faculties, my students and my own hard work towards the aim will make us success.

ABOUT JAY AMBE ABROAD

Jay Ambe Abroad is founded and managed by Mr. Pravin Gajera for more than 20 years now. Maximizing his academic excellence, being among the Topper in SSC and HSC in Board Examinations, Mr Pravin Gajera served thousand of students and individuals reach the peak of their career, creating dreams into realities. Jay Ambe Abroad as an institution has established a culture of excellence and quality. Its exemplary performance resulted in the achievements of prestigious recognitions and certifications making it as an organization compliant with international standards.

Being a worthy institution, Jay Ambe Abroad provides comprehensive services for its students sent abroad for MBBS (MD), Counseling, Admission, Documentation, Visa & Travel Arrangements, Hostel Accommodation, provision of Indian food and safety of students are its prime strengths. Facilities of Face to Face and online Coaching for NeXT (National Exit Exam)/USMLE/PLAB are among its premium implemented programs to ensure that all needs of students are totally taken care of.

We just don't say, we do it. This is the reason why there are 2000+ students and families who fully trust Jay Ambe Abroad.

Through Our initiatives there are 500+ Indian students graduated and now practicing and Doctors, in various leading hospitals in India as the rest of the world.

Education through
Jay Ambe Abroad has been
CATEGORIZED into mainly
THREE DOMAINS

JAY AMBE™
ABROAD PVT. LTD.

SKILL

The first is the domain of 'skill', Sadhan. These are those medical skills and treatment equipment needed in the medical field that help students learn convincingly. They will learn to employ necessary instruments and medicines for treatment. If one has to look for a concept from the Indian philosophy that has an equivalence with this domain that would be the concept of SADHAN.

KNOWLEDGE

The second is the domain of 'knowledge', Sadhana. It pertains to the knowledge base the students must acquire from subject areas in the medical field of varying nature. From this base should flow, meticulously, gathered and researched information needed during the entire process of treatment. Again, an equivalent concept from the Indian philosophy to represent this domain would be SADHANA.

EXPERIENCE

It is the third domain of 'experience' that becomes the vital core of the treatment process, Sadhya. The total and composite learning from this domain is meant to make students think laterally and intuitively, understand medical principles and translate these principles into practical lessons which in fact is the very remedies of the stated diseases. This equivalent concept from the Indian philosophy, obviously is SADHYA.

Comparison of Educational Programmes of PHILIPPINES with other countries

Philippines follows the American education system.

English is the largest spoken language in Philippines and is their official language. Philippines was ruled by America formerly and is associated with America today. 94% of the population speaks English and is the 3rd largest English-speaking country after USA and UK.

Students talk to patients in English and get great clinical expertise.

Education is as per American pattern, hence clearing American Medical Licensing Exam (USMLE) is easier.

Affiliation with American colleges for rotational internship and after completing the studies can practice in USA.

Philippines is a tropical country. It has similar diseases as India like malaria, typhoid, chicken guinea, swine flu etc., so they get exposure to diseases.

Indian vegetarian food and Gujarati food is easily available.

Weather: tropical hot like India temperature (21° to 37° degree Celsius).

In Philippines after standard 12 there is 4.5 years study programme to do MBBS.

The passing ratio of Philippines colleges are as high as around 90% in the screening tests of MCI and USMLE.

In Philippines the cost of lodging, boarding and studies is very low.

To and from flight ticket from India is very cheap.

India and Philippines have very good relations.

The practice is made over a real dead body.

American education system is not followed.

Chinese, Russian and other languages are spoken. The MBBS students have to learn their local languages. On 4 to 5% local people speak English.

Patients speak local languages. It is difficult to learn Chinese, Russian and other local languages.

Education is not as per American pattern, hence clearing American Medical Licensing Exam (USMLE) is hard.

Colleges of these countries have no such affiliation with America

Being countries with cold and hot weather diseases commonly found in India can not be studied in-depth.

Indian vegetarian food is very costly and not easily available.

Weather: cold and hot temperature, very cold for 3 months, temperature in winters sometimes go down upto 20° degrees.

In all these countries the study programme is of 6 years.

Colleges here have very low passing ratio in the screening tests of MCI and USMLE.

The cost of lodging, boarding and studies is very high.

To and from flight ticket from India is very high.

The relations of India with these countries are very delicate

The practice is made over a plastic body.

CAREER OPPORTUNITIES

Students have to give the FMGE (commonly known as the MCI Screening test), comply with MCI process to register. Once Registered - they are eligible to apply for Government jobs in India and to join Post graduate courses in India.

USMLE : All students who study in the Philippines are eligible to give USMLE and go to the USA for practice after satisfying the norms needed for licensure and registration. The Medical Colleges are listed in IMED directory (FAIMER Directory) and approved by the Educational Commission for Foreign Medical Graduates (ECFMG).

California Board of Medicine : Colleges in the Philippines are listed in the California Board of Medicine's Directory of approved International Medical Colleges. This means after passing from Philippines, qualifying USMLE and complying with other process they are automatically approved to register and practice in the State of California.

California is the richest state in the USA and accounts for 13% of the Economy of the USA. Doctors here are amongst the highest paid in the USA.

American Pattern : The Medical course is patterned on USA. This gives a strong Advantage to medical professionals educated in the Philippines who are interested in the US. Students can go for clerkship rotations (internship rotations) to the USA from the Philippines. Some colleges have tie ups for this. Else students can source out their own rotations and get permission to go to the USA which will be given credit by the School for clerkship.

Other Countries : The degree is valid in over 180 countries: Singapore, Gulf Countries, New Zealand, Australia etc. Each country has a licence / registration process for doctors - as this profession deals with humans and is regulated, you need to pass a competency test. Some countries may have a language test, job visa requirements etc - each of which needs to be complied with.

Degrees Awarded : MD or Doctor of Medicine, called MBBS in India. MCI gives MBBS registration in India as will UK, Singapore and Gulf authorities. IN USA you will get a MD certification. What is known as MBBS in India and other commonwealth countries is called MD in the USA and in The Philippines.

FMGE COACHING

MCI SCREENING TEST

FMGE stands for the Foreign Medical Graduate Exam, student who have graduated from any foreign University in order to practice back in India needs to appear in this Exam conducted by NBE (National Board of Education) under MCI (Medical Council of India)

This is one area where LN-U is able to set itself apart and is able to show the quality of its education. In Association with Jay Ambe, year after year, LN-U has been able to provide the highest passing percentage in the MCI Screening Test (FMGE) amongst all Foreign Medical Colleges over the Globe. With an average first time passing percentage of 85% since the first batch of students took the exam. The students have also consistently been amongst the top marks in the examination with LN-U students holding the no.1 rank in the MCI Screening test on multiple occasions.

The most recent batch from LN-U scored performed exceptionally once again in the MCI Screening Test with the students accumulating an overall pass percentage of 86%. Four students of LN-U also had the distinction of being amongst the top 10 overall marks in India.

To even further the high pass percentage of our students, Jay Ambe also conducts special coaching classes for our students with the India's Leading faculty specialized in FMGE Preparation.

DAGUPAN CITY

Dagupan city is the most ancient yet a most developed 1st class highly urbanized Mega city of Philippines. Rapid economic growth has also spawned the emergence of a modern urban skyline and the development.

It's no surprise Trip Advisor named Dagupan the only Philippines City to make in the top 25 list for best destinations in Asia.

The Dagupan city's infrastructure is quite developed with numerous ultra-modern shopping malls and high-rises, an airport lauded as one of Asia's best and an expensive road network throughout. It's surrounded by wonderful mountains and islands.

More than 15 Indian restaurants are there in Dagupan city. Philippines catering delicious Indian food. Many Indians staying in Dagupan city and there are Indian Temples too.

Dagupan city is best for Education.

"Dagupan city is modern energy and rich traditions".
